

March 7, 2023

Dear Parents, Students, Teachers, and Building Occupants,

In 1986, Congress passed the Asbestos Hazard Emergency Response Act (AHERA) requiring schools to inspect and identify any asbestos-containing building materials (ACBM). We are pleased to announce that the High Mountain Institute is an asbestos free school.

The law further requires all schools to have an asbestos management plan. The High Mountain Institute has an asbestos management plan available for review in the administrative office of the school during regular business hours. Em Ducharme is our designated asbestos program coordinator, and all inquiries regarding the asbestos plan and asbestos-related issues should be directed to her at 719-486-8200, ext 102, educharme@hminet.org.

Sincerely,

Amy Roberts
Head of School

Delivered via inclusion in weekly employee communication, posted for one week on bulletin board at school, posted on website.
